## I Need Your Help

### I REALLY DO NEED YOUR HELP

In these days of fake news, fake health care and fake internet, what I am about to tell you may seem like a conspiracy theory, but I can assure you it is real.

**CENSORED**

It all started with the Brexit Vote when those who want the UK to leave the EU to become an independent country again (if we ever were?) won the referendum using Internet Freedom. Then the 'Establishment' (Governments, Large organisations, Pharmaceutical companies, and others who wielded power) suddenly realised they had lost control of the message and the people could talk to each other at no financial cost and no censorship.

For the past 19 years, I have been using this Internet Freedom to help people around the world with fantastic success.

#### The conditions helped with my books range from:

- Infertility and blocked fallopian tubes
- Heart and Circulatory Problems
- Lung Disease
- Pain Problems
- Blood Pressure
- Men's Problems
- Women's Problems
- Macular and other eyesight problems
- Diabetes and Kidney disease
- Autoimmune Diseases such as MS
- And latterly, Alzheimer's and Parkinson's
- And many more

## CENSORSHIP

Now the 'Establishment' has put pressure on Facebook and Google to censor health information that either contradicts the Pharma/Medical fake health story or simply makes it more difficult to find.

#### It is not just me.

Large organizations, including independent dedicated scientific information sites such as GreenMedInfo.com, are being censored. They are the world's most widely referenced, evidence-based, natural health resource with over 10,000 health topics, and 50,000 peer-reviewed abstracts that I use for reference has had search terms blocked, making it harder for people to find when searching online', making it harder for people to find when searching online'.

## GOOGLE

Since I introduced Serrapeptase to the world wide web in 2000, my [www.Serrapeptase.info](http://www.Serrapeptase.info) has been top in the world, in every country, whenever anyone searched the word 'serrapeptase'. There are hundreds of articles, studies and results from users on serrapeptase.info and today, it is still widely used for reference', and it is still today the most widely used for reference. Every web site in the world has taken

the serrapeptase information from serrapeptase.info since there was no other information available, and indeed, feedback from the thousands of our customers.

Now Google has blocked my site, and if you type in the word serrapeptase, you will not find my place. You can, of course, go directly to my site since they cannot yet block an individual web site but the Establishment is actively considering that.

## FACEBOOK

I am blocked from boosting my posts on Facebook. Every day I put a post about health on Facebook. These posts are viral, and previously, I could 'boost' a post to be seen by other people around the world and not just by those who followed my work. Now I am blocked by Facebook from boosting posts. Now they are only seen by those who 'liked' my posts or those who 'shared' my post.

## HOW CAN YOU HELP ME?

It seems the only way we can spread the information with this censorship is for our existing customers and followers to SHARE GOOD HEALTH.

There are several ways you can do this.

**Facebook users** – please make a point of 'liking' the websites, 'liking' and 'sharing' every post to Share Good Health.
