

Today's Newsletter

Is about my QuantoGram devices. I have been a little quiet recently with QuantoGram but things are happening with the increasing evidence about the side effects of 5G and these products are growing in popularity as people seek ways to protect themselves.

5G Is Happening

At a street level but soon it will be everywhere on the planet as thousands of small 5G satellites are being launched to cover the whole planet with 5G WIFI. My QuantoGram devices below provide protection from all 5G, Wifi and EMF radiation.

HoloGuard? - SafeHouse? - Shoe Insoles?

How do they give protection and how can I demonstrate it? I show this in the videos below and at the end, I am going to give a live video demonstration and enable you to feel the effects via your computer or mobile phone screen, whichever you are using. There are many studies all over the world showing the damage that 5G and WiFi radiation causes to cells - you can search for them using Google.

To get human studies conducted on my devices would cost an actual fortune. However, I am convinced I have enough evidence to recommend the use of these devices for protection based upon the below information and the attached presentation.

My Best Explanation

If you want to understand more about Quantum theory, you need to search 'Ted Talks Quantum' videos on YouTube to watch the professor's explanations to understand more.

An article just recently published in the '**Scientific American Online Journal**' reported on new experiments that repeated previous experiments to show how even our brains can influence these quantum particles.

All of my QuantoGram devices are designed to influence quantum particles, and in the case of 5G WIFI, and other harmful EMF, the HoloGuard, SafeHouse and Shoe Insoles make the quantum particles in our body immune (or neutralise) the harmful effects from any harmful frequencies.

How Can We Demonstrate The Effect of QuantoGram Products?

Through using a Thermal Imaging Camera to demonstrate the protection from harmful effects and the QuantoGram Strength Test shown in the videos below. This test works for my QuantoGram devices and in fact any other existing devices claiming to protect you from WIFI but you have to follow the test in careful detail. For example, the feet should be tight together and the hand being pushed down must not leave the side of the leg, which you will see in the videos below.

QuantoGram Strength Test

If you use these tests with the QuantoGram HoloGuard protected phone NOT in the hand and then with the QuantoGram HoloGuard protected phone IN the hand of the person being tested, they will become much stronger with the phone IN the hand with the QuantoGram HoloGuard protecting the person.

It is better if you have the person testing you to be bigger and stronger than you. If you are testing someone else, choose a weaker person as I do in the videos so you can feel their increase in strength.

If you look at the faces of the people I am demonstrating QuantoGram on you will see the amazement when they suddenly feel many times much stronger and can easily resist the pushing down movement.

It's critical if you are showing someone that you follow the steps I show in the videos. Listen carefully to all of the steps.

World First:

Now I am going to do something I have done many times - giving a personal demonstration to friends and acquaintances. To be part of this experiment, you need a glass of water and a person to test the strength of, both before and after drinking the water. IMPORTANT the person being tested must not touch the glass or drink the water once it is energised except once you have tested their strength.

You can do this strength test right now or any time you watch this video.

The demonstration is shown in my Facebook/YouTube video at the top of the newsletter. It still works whether it is the live video on FaceBook/YouTube or you are watching this any time later. The important thing is that you follow the instructions carefully. It will work many times, so you can share this with as many friends as you like and it will still work for them. NB, It will not work if you already have a SafeHouse in your house or a HoloGuard in a pocket.

Have fun amazing your friends. If you video your own 'before and after' test please share them with me.

There are three products:

Quantogram HoloGuard – Rather than blocking signals, Hologuard allows radiation to resonate at a healthy, frequency that neutralizes the potentially harmful positive charged field around a portable wireless (Wi/Fi) device. Ideal for mobile phones, DECT/cordless phones, laptops, tablets, portable Wi/Fi Hotspot devices and Wi/Fi modems, which may neutralize the harmful resonant effect on human organs and meridians. In addition, the HoloGuard Phone Radiation Harmonizer is unique in its ability to potentially provide further electronic EMF protection from the effects of other EMR fields.

Quantogram SafeHouse – A simple plug-in device that can provide ongoing protection against EMF/EMR radiation in the entire household. Once plugged in and switched on, the SafeHouse uses the current wiring circuit to provide protection for the entire house or office space. Only one SafeHouse is required per household or office, and once plugged in you are protected from EMF/EMR radiation.

Quantogram Insoles - QuantoGram Insoles are energized shoe insoles designed to gently energize the reflex points on the underside of your feet. Developed and researched by health professionals, these Insoles assist with reducing foot pain and increasing blood circulation. May balance and increase energy levels, providing EMF protection for the whole body. Great for everyone and especially beneficial for the elderly to help regain strength or balance. Recommended for those on their feet all day or people who enjoy exercise as it may help to promote higher energy levels and reduce fatigue. Suitable for all foot sizes, easy to use, resilient, lightweight and breathable.

Remember

These things work and the strength tests show the protection resulting in your immediate increase in strength when you are protected from the EMF and the frequencies that take your strength and health away.

I carry one around in my pocket and on my phone as well as having the safehouse in my house and office and have done so for 4 years. This is another way you can protect the health of your family.

Basic Health Product Recommendations

Vitamin D3™ 4000IU - An essential combination of Vitamin D3 and Calcium to support overall health, particularly when sunlight is scarce. Vitamin D3 plays an important role in supporting the immune system and is beneficial for supporting bone health and more. Take a minimum of 2-4 capsules a day, with water. Suitable for vegetarians.

ActiveLife™ - A full-spectrum multivitamin/mineral containing 130 essential nutrients, recommended to be taken daily for good health. Adults and children over the age of 12 should take up to 3 capsules, twice per day with a meal. Children under the age of 12 should take 2 capsules per day, or as directed by your healthcare professional. Suitable for vegetarians

CureC™ Liposomal Vitamin C + Quercetin - CureC™ provides high-quality Liposomal Vitamin C 1000mg, plus 175mg of the antioxidant Quercetin and 1000mg PC per serving. Protects healthy cells and has various benefits for optimal health, including support for immune function, brain health, blood sugar, and heart health. Suitable for vegetarians and vegans.

PrescriptBiotics™ - An award-winning probiotic supplement that contains 8 Bio-Identical SBO (soil-based organisms) of Probiotics Consortia. Essential for supporting the growth of all-natural, friendly microorganisms that help to renew and create a healthy rebalance between the good and bad gut bacteria. May support stronger digestion, immunity, and overall health. Suitable for vegetarians and vegans.

Ancient Magnesium OIL ULTRA with OptiMSM - Topical Magnesium with 100% Zechstein Magnesium Oil. All the benefits of the original oil plus OptiMSM, the world's purest MSM for enhanced absorption. Recommended for general relaxation, relief from sore muscles, various body aches, and meeting your daily requirements of this essential mineral for achieving optimal health. Suitable for vegetarians and vegans.

Pure Concentrated Organic Minerals™ Liquid - High fulvic acid content, containing more than 70 trace minerals, trace elements, electrolytes, amino acids and additional organic acids. Includes Organic Selenium, Zinc, Manganese, Copper and others. The 18 amino acids were formed over the course of 38 million years – proof of their plant and organic origin. Contains electrolytes, each mineral carrying its own unique bio-electric signature to support a night of more restful sleep, clearer mind and brain function, balanced appetite, along

better absorption of nutrients from foods and supplements. Also available in capsules.
Suitable for vegetarians and vegans.

Take good care of yourself,

Robert Redfern
